

MUTHUPANDI RAJ

Frontend Architect, Senior Frontend Developer, React Lead, Senior React Js Developer

Location: Karur, Tamil Nadu, India.

Phone: [+91 7904688429](tel:+917904688429) **Email:** muthupandiraj1911@gmail.com

LinkedIn: <https://www.linkedin.com/in/muthu-r-287392207/>, **Portfolio:** <https://resume-muthupandi-raj.web.app/>

PROFESSIONAL SUMMARY

Frontend Engineering Lead with 8+ years of experience architecting and delivering scalable, secure, responsive, accessibility, progressive, and high-performance enterprise web applications using React.js, and modern frontend technologies. Proven expertise in micro-frontend architecture implementation, performance optimization, CI/CD automation, and technical leadership. Strong background in banking, fintech, and compliance platforms with experience leading cross-functional teams, mentoring engineers, good communication and driving end-to-end project execution and delivery.

TECHNICAL SKILLS

Frontend Technologies

React.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, React Hooks, React Router, Virtual DOM, React Query, State Management, Redux, Redux Toolkit, Context API, Component Design Patterns, Next.js, Figma, Material UI, Ant Design, Styled Components, Jest, React Testing Library

Build Tools & Performance Optimization & API

Webpack, Babel, Vite, Code Splitting, Lazy Loading, Lighthouse, React Profiler, SonarQube, Page Load Time Testing, REST APIs, GraphQL, Swagger UI, Postman

Micro Frontend & DevOps & Cloud & Generative AI

Webpack 5 Module Federation, CI/CD pipelines, Git, GitHub, GitHub Actions, Docker, Harness, Firebase, AWS, S3, EC2, Bitbucket, Jira, Azure DevOps, Agile methodologies, Scrum, GitHub CoPilot, Claude

PROFESSIONAL EXPERIENCE

Synechron (Client: Wells Fargo), Bangalore, Technical Lead, 05-Jul-2025

Led the end-to-end development of a compliance automation platform covering 100+ applications and 10+ regulatory controls. Designed and scaled rule-based compliance

workflows across 100+ applications, reducing assessment times by 60% and boosting remediation tracking by 40%

Key Responsibilities & Achievements

- Received Star Performer Award 2025 for outstanding contributions to the compliance automation platform.
 - Streamlined project discovery by analyzing complex compliance requirements from cross-functional stakeholders, accelerating the initial development lifecycle by 15%
 - Led frontend architecture and enterprise user interface design for compliance workflows and Managed and mentored 6+ frontend engineers.
 - Implemented secure rule-based workflows for aligned and non-aligned applications. Coordinated cross-functional engineering and QA teams, ensuring 100% on-time project delivery across all 10+ regulatory control modules
-

Persistent Systems (Client: Intuit), Bangalore, Engineering Lead, 05-Jun-2024 to 04-Jul-2025

Led modernization initiatives for legacy enterprise applications and designed scalable frontend architecture using React.js and micro-frontend architecture patterns

Key Responsibilities & Achievements

- Led migration of 15+ legacy applications to React 18. Designed and implemented micro-frontend architecture using Module Federation and implemented centralized API handling
 - Reduced bundle size by 30% using code splitting, lazy loading, and performance optimization techniques.
 - Achieved 90% unit test coverage using Jest and React Testing Library for React components and reducing production defects.
 - Mentored 4+ junior engineers and enforced structured code reviews, reducing post-release engineering bugs by 25%
-

TNQ Technologies, Chennai - Senior Software Engineer, 16-May-2022 to 31-May-2024

Developed a modern web-based document production platform replacing Microsoft Word-based workflows

Key Responsibilities & Achievements

- Built a library of 30+ reusable React components, cutting down subsequent frontend feature development time by 35%
 - Designed centralized state management architecture and secure applications
 - Created custom React hooks and optimized API caching layer, reducing server roundtrips and improving front-end data loading speeds by 20%
-

Straive, Chennai, Senior Programmer, 17-Jun-2019 to 12-May-2022

Engineered and scaled high-performance enterprise React applications, automating core workflows to enhance platform usability and system responsiveness

Key Responsibilities & Achievements

- Architected a reusable, scalable UI component library that streamlined development velocity across teams and ensured design system consistency.
 - Partnered cross-functionally with backend and QA teams to align API schemas and accelerating delivery cycles.
 - Optimized end-user workflows, driving a 20% increase in production efficiency by systematically eliminating manual operational bottleneck
-

RR Donnelley, Chennai, Software Engineer, 13-Dec-2017 to 16-Jun-2019

Developed robust frontend features for internal enterprise platforms while providing production support

Key Responsibilities & Achievements

- Diagnosed and mitigated critical production bottlenecks, consistently maintaining a 95% SLA compliance rate across high-traffic enterprise platforms.
 - Spearheaded UI defect resolution and feature enhancements, improving cross-browser compatibility and reducing technical debt in legacy codebase
-

DOMAIN EXPERTISE

Banking, Fintech, Finance, Publishing, Insurance

EDUCATION

B. Tech in Information Technology from Anna University, Trichy (2013 to 2017)

CERTIFICATIONS:

Advanced React from Udemy, Fundamentals of Agentic AI from Udemy

LEADERSHIP & MANAGEMENT

Frontend Architecture Design, Technical Leadership, Project Planning & Execution, Stakeholder Communication, Cross-functional Collaboration, Code Review & Engineering Standards, Risk Management & Issue Resolution, Performance Monitoring & Optimization
